This summer is shaping up to be a scorcher - is your airconditioner up to the challenge?

Most of us probably haven't even checked our airconditioner since last season and Abbotts are now pleased to announce we can offer a full

airconditioning service for your vehicle

An effective airconditioning system is an important feature in our extreme climate. Whether you're stuck in traffic or for those long holiday drives, being able to keep you and your family cool and comfortable is essential.

We will do a complete system check to:

- **Check your system for gas leaks**
- **Repair leaking hoses and fittings**
- **Replace worn belts and pulleys**
- **Silence noisy belt squeaks and squeals**
- **Perform infrared temperature efficiency checks**
- **Change cabin filter (if fitted)**

Don't leave it until it's too late!

Pass this important info on to your family and friends and feel free to call us with any further questions

Happy motoring!

Abbotts Auto Care
